

**Prof (Dr.) Sadhana Mandloi,
Professor and CODL Director,
School of Online Education,
Mewar University**

Dear Students,

It is great pleasure and immense pride to address you all from the desk of the Director, Centre of Open and Distance Learning (CODL) under Mewar University.

Please accept our sincere greetings and thank you for visiting our website.

The key to choosing a Learning Program is to find the right environment, one in which you can thrive personally and develop into the Professional you aspire to be. Ours is a rigorous but a collegial program. Our top priority is to educate learners.

It is an honor for me to serve as the Director of Mewar University, Gangrar, Chittorgarh (Raj). The Distance and Online programs at Mewar University is housed in the same University premises and include both academic and administrative people who are entirely and exclusively focused on new generation education.

It is our goal to provide you with the best possible Knowledge and Skills training in an academic and supportive environment conducive to learning. We accomplish this through close mentorship, modeling professionalism and a commitment to our Learners, and by setting high academic standards.

We are a dedicated team that is focused on continuous improvement and innovation, while consistently providing excellent education that meets the needs of our learners. Whether you are an alum, industry professional or are interested in the program, we want you to connect with us!

The core of our mission is a steadfast commitment for making quality education accessible to all. At the CODL, we firmly believe in the power of education to transform lives, and we continuously strive to reach those who might otherwise be excluded from traditional learning environments. We have designed our programs to offer maximum flexibility, allowing students from all backgrounds of life to pursue their educational goals at their own pace.

Through this initiative, we hope to establish a seamless, stimulating, and student-centred learning environment as technology has the ability to transform education. I urge everyone to engage with our educators, and explore the options that are available through this enriching platform.

Looking forward to an exhilarating journey of knowledge and triumph with you all.
